

## Jiangsu Eastern Shenghong: 2024 Annual Results and Provision for Asset Implement and Profit Distribution Proposal and 2025Q1 Results

Suzhou City, China, April 28, 2024

Jiangsu Eastern Shenghong Co., Ltd. (the "**Company**") today reported financial results of 2024 full year and the first quarter of 2025.

- During 2024, the Company achieved operating revenue of RMB 137,674,557,166.85, a decrease of 1.97% over the same period last year and net loss attributable to shareholders of the listed company of RMB -2,296,841,255.74. Net cash flows from operating activities accounts to RMB 10,474,825,680.95. The changes in revenue, profit and cash flow of 2024 were mainly due to multiple factors such as fluctuations in international crude oil market prices and weak downstream demand in the petrochemical industry, the price differentials of parts of the Company's products have narrowed, resulting in a decline in the Company's operating performance compared to the same period last year.
- The provision for impairment of assets of 2024 decreased the total profit of the consolidated financial statement in 2024 by RMB 736.3994 million. The Company conducted a comprehensive examination and impairment testing of various assets as of December 31, 2024. Based on the testing results, the Company made provisions for impairment for assets where impairment indicators were identified.
- The Company did not achieve profitability in 2024. Considering the current external environment, future development plans, and funding needs, to ensure the normal production and operation of the Company, achieve sustainable, stable, and healthy development, and better safeguard the long-term interests of all shareholders, the Board of Directors has proposed the following profit distribution plan: no cash dividends will be distributed for the year 2024, no bonus shares will be issued, and no transfer of capital reserve to increase share capital will take place. This profit distribution plan for 2024 complies with the relevant provisions of the profit distribution policy in the *Guidelines for Regulatory Oversight of Listed Companies No. 3 - Cash Dividends of Listed Companies* issued by the China Securities Regulatory Commission and the Company's Articles of Association.
- During the first quarter of 2025, the Company achieved operating revenue of RMB 30,309,373,926.52, a decrease of 17.50% over the same period last year, net profit attributable to shareholders of the listed company of RMB 341,165,717.89. Net cash flows from operating activities accounts to RMB -2,691,660,545.33. The changes in revenue were mainly due to fluctuations in crude oil prices, some price of the Company products declined, resulting in a decline in the Company's revenue. In the first quarter of 2025, the Company benefited from product structure optimization and certain tax incentives, leading to an increase in profits.

### About Jiangsu Eastern Shenghong Co., Ltd.

Led by a visionary management team, the Company has established leading positions in business segments including renewable energy materials, performance chemicals, petrochemicals, and chemical fiber industries. Underpinned by its leading position and high brand awareness, the products are widely adopted in downstream applications. In particular, Shenghong is a pioneer in the renewable energy materials and performance chemicals sector, and it intends to continually invest in this sector to capture its strong growth potential.

At present, the Company has the 16 million tons/year refining and chemical integration unit, 2.4 million tons/year MTO unit and 0.7 million tons/year PDH unit, realizing the full coverage of three olefin production process routes, namely, "oil head", "coal head" and "gas head". Through the differentiated and diversified layout of raw material sources of "oil, coal and gas", the Company has more options and possibilities in terms of comprehensive cost control, coping with the risk of cyclical fluctuations, new product research and development, and process route selection of downstream high-end petrochemical products, building a solid foundation for the Company to further play the advantages of scale operation, reduce the operational risk caused by cyclical fluctuations of the industry, and better realize anti-cycle and cross - cycle steady development.
