About Jiangsu Eastern Shenghong Co., Ltd.

Shenghong has established leading positions in business segments such as renewable energy materials, performance chemicals, petrochemicals, and chemical fiber industries. Underpinned by its leading position and high brand awareness, the products are widely adopted in downstream applications. In particular, Shenghong is a pioneer in the renewable energy materials and performance chemicals sector, and it intends to continually invest in this sector to capture its strong growth potential.

At present, the Company has the 16 million tons/year refining and chemical integration unit, 2.4 million tons/year MTO unit and 700,000 tons/year PDH unit, realizing the full coverage of three olefin production process routes, namely, "oil head", "coal head" and "gas head". Through the differentiated and diversified layout of raw material sources of "oil, coal and gas", the Company has more options and possibilities in terms of comprehensive cost control, coping with the risk of cyclical fluctuations, new product research and development, and process route selection of downstream high-end petrochemical products, building a solid foundation for the Company to further play the advantages of scale operation, reduce the operational risk caused by cyclical fluctuations of the industry, and better realize anti-cycle and cross - cycle steady development.
