Jiangsu Eastern Shenghong: 2026Q3 Results and Provision for Asset Impairment and Scrapping of Certain Fixed Assets for 2026Q3

Suzhou City, China, October 27, 2026

Jiangsu Eastern Shenghong Co., Ltd. (the "**Company**") today released financial results of 2026Q3.

- During the first three quarters of 2026, the Company achieved operating revenue of RMB 92.84 billion, an increase of 0.74% YoY and net profit attributable to shareholders of the listed company of RMB 4.64 billion, an increase of 3,573.11% YoY. Net cash flows from operating activities amounted to RMB 18.29 billion. In the first three quarters of 2026, the average oil price rose temporarily due to geopolitical conflicts. Shipping disruptions in the straits limited access to raw materials, causing a rapid tightening of market supply. Combined with downstream stockpiling demand, this led to a sharp rise in petrochemical product prices, resulting in increased operating revenue for the Company and a marked improvement in product gross margins.
- The provision for impairment of assets and scrapping of certain fixed assets of the first three quarters of 2026 decreased the total profit of the Company's consolidated financial statements in the first three quarters of 2026 by RMB 388.7177 million. The Company conducted a comprehensive examination and impairment testing of various assets as of September 30, 2026. Based on the testing results, the Company made provisions for impairment for assets where impairment indicators were identified and scrapped those that could no longer meet production and operation needs.

2. Provision for Asset Impairment on the Financial Position of the Company in 2026Q3

To provide a true and accurate reflection of the Company's asset condition and financial position as of September 30, 2026, the Company and its subsidiaries conducted impairment tests on various assets based on the principle of prudence and made provisions for possible asset impairment as of September 30, 2026. The details are set out below:

Unit: RMB '0,000

Item		Amount
Credit impairment losses (losses expressed with "-")	Bad debt provision	5,151.48
Asset impairment losses (losses expressed with "-")	Provision for inventory impairment	-28,530.32
Total		**-23,378.84**

Note: The provision for asset impairment pertains to the reporting period from January 1, 2026, to September 30, 2026.

3. Scrapping of Certain Fixed Assets in 2026Q3

To improve asset utilization efficiency, the Company conducted an inventory and assessment of fixed assets and scrapped those that could no longer meet production and operation needs. During the third quarter of 2026, the net value of scrapped fixed assets amounted to RMB 38.4727 million, with a scrapping loss of RMB 28.5165 million, which will reduce the Company's consolidated total profit for the third quarter of 2026 by RMB 28.5165 million. During the first three quarters of 2026, the net value of scrapped fixed assets amounted to RMB 176.3039 million, with a scrapping loss of RMB 154.9293 million, which will reduce the Company's consolidated total profit for the first three quarters of 2026 by RMB 154.9293 million.

About Jiangsu Eastern Shenghong Co., Ltd.

The Company is a globally leading energy and chemical enterprise that has vertically integrated the whole industrial chain and been deeply engaged in the new energy and new materials business.

The Company has a refining-petrochemical integration plant with a capacity of 16 million metric tons/year, a methanol-to-olefin (MTO) plant with a capacity of 2.4 million metric tons/year, and a propane dehydrogenation (PDH) plant with a capacity of 700,000 metric tons/year, and has formed an industrial pattern of "double chains" of olefins and aromatics and has unique capabilities in integrative production of olefins, kerosene, coal and natural gas which has gradually formed an integrated chemical industry chain with vertical integration. Relying on refining integration, alcohols coproduction and propylene industry chain projects, the Company has established a basic chemical raw material supply platform for downstream fine chemical industries. The Company has established a new development strategy of "strengthening, extending and supplementing" the industrial chains from upstream oil refining to downstream high-value-added fine chemicals. The Company has formed an industrial layout of "1 core platform + N diversified industry chains" for new energy, new materials, electronic chemicals, biotechnology and other emerging industries developing in a coordinated way. Looking ahead, the Company will, on one hand, further expand the vertical integration of its entire industrial chain and deepen strategic layouts in new energy and new materials, and on the other hand, begin implementing its artificial intelligence strategy, including strengthening AI infrastructure construction, deepening scenario empowerment, focusing on the application of petrochemical refining, new energy and new materials, high-end textiles, and other industrial fields, continue to cultivate "new quality productivity" to build a world-class energy and chemical enterprise under the wave of AI.
